

# MADRASSER FOR OFFSHORE

## Westnofa Offshore Svartbak

Height: 15 or 13 cm.

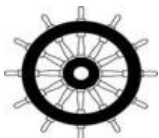

### Mattress model with good sleeping comfort.

This model has a profiled core of fire-resistant foam. One side is profiled. The mattress can be used on both sides and combines a firmer sleep comfort on one side and a softer sleep comfort on the other.

The cover is made of Pyroprotex<sup>®</sup> a cotton/polyester fireproof fabric, which is certified for fire class "Crib 5" and Oeko-Tex<sup>®</sup> Standard 100, Class I. It is quilted with fireproof fibre. The cover can be washed at 60 ° C.

The mattress is tested according to the IMO FTP part 9 standard and is WheelMark certified.

The mattress can be used together with the "Tjeld" top mattress.

WheelMark Certification –  
Marine Equipment - MED 96/98/EC
